

PREMIUM ORGANICS PREMIUM KELP

ADVANTAGES

Improves Plant Health

Improves tolerance to adverse conditions

Increases Photosynthesis

OVERVIEW

Premium Kelp is manufactured to Bio-Gro standards from a high quality kelp blend. An extract, derived from sea plants sustainably harvested from the harsh conditions of Maine's frigid waters, Premium Kelp contains high volumes of quality biostimulants which improve plant health and growth potential.

COMPATIBLE

- Liquid fertilizers
- Bio-products
- Consult for detailed information

RESULTS

- Increase Fruit Consistency and Storability
- Improved Sugar Content & Fruit Size
- Maximize Investment in Nutrient Availability

BENEFITS

Premium Kelp is applied to maximize photosynthesis for improved plant health, increasing produce quality and stress tolerance.

The wide variety of bio-stimulants in Premium Kelp, grown in the cold waters, improve your crops capacity to handle unpredictable environmental stressors such as heat, cold, and salt accumulation.

Produce quality factors - such as color, flavor, storability - are maximized with Premium Kelp.

CONTENTS

Soluble Potash 1.0%
Derived from Kelp Extract (*Ascophyllum nodosum*)

8.4 - 8.5 lbs / gal
pH 4.5 - 5.0

APPLICATION RATES

Used in both organic and conventional fields, Premium Kelp is applied foliar and/or in soil application.

Foliar Applications:

Apply 1-4 quarters per acre

Soil Applications:

Apply 1- 3 gallons per acre

Storage

Do not store below 32F. Do not allow the product to freeze. Store out of direct sunlight. Keep in a cool location out of reach of children and livestock.
