

Bio-CS+

GUARANTEED ANALYSIS (1-0-0)

Total Nitrogen (N).....1.0%

1% Ammoniacal Nitrogen

Derived from aqua ammonia

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:

5% Fulvic Acids, 6% Organic Acids

GENERAL INFORMATION

Bio-CS+ is an organic acid based Crop-Start Additive (CS+) designed specifically for compatibility and application with ortho- & poly-phosphate fertilizers. Recommended use with starter in-furrow and/or 2x2 applications.

DIRECTIONS FOR USE

Mixing Directions - Bio-CS+ can be applied by side dress and banding equipment water run through irrigation systems or sprayed directly on soils with other fertilizer materials.

Applications - Bio-CS+ should be used especially with soil applied starter and side dress fertilizer band applications.

Dilution and Spray Volumes - Always use enough water for uniform application and to prevent possible plant tissue damage to the intended crop from concentrated droplets.

Storage and Disposal: Store in original containers at temperatures above freezing. Dispose waste at approved disposal facility. To dispose of containers, triple rinse and dispose according to local and state regulations.

ALWAYS READ LABEL BEFORE USING THIS PRODUCT

SUGGESTED APPLICATIONS

Optimum rate of application will vary between fields depending on soil and/or climatic conditions, stage of crop growth and size of plants. Application rates are best determined by soil and plant analysis recommendations.

Field Crops

Beans, peas, corn, potatoes, soybeans, etc	2-4 qts / acre with liquid fertilizer placed near the seed or in a sidedress prior to 40% of full plant height. 2 qts / acre if directly on seed
--	---

Vegetable Crops

Asparagus, celery, cole crops, lettuce, onions, strawberries, peppers, tomatoes, etc.	2-4 qts / acre during periods of rapid growth or nutritional stress
---	---

Cereal Crops

Wheat, barley, oats, rice, rye, etc	2 qts / acre at planting
